Weedinator 1L

KEEP OUT OF REACH OF CHILDREN
ECOTOXIC

Weedinator

ACTIVE INGREDIENT
360g/litre glyphosate

as the isopropylamine salt in the form of a soluble concentrate.

HERBICIDE

A non-selective herbicide for control of many
annual and perennial weeds.

Net contents: 1L

READ LABEL BEFORE USE

HAZARD STATEMENT:

Toxic to the aquatic life with long-lasting effects.

WARNINGS:

- Do NOT apply on or around food and animal feed crops.
- NON-SELECTIVE HERBICIDE. Beware - Apply this product carefully. Spray drift may cause serious damage to other desirable plants.
- Do NOT apply if rainfall expected within 2 hours of application may wash off the foliage, and within 6 hours will reduce effectiveness so that re-treatment may be necessary.
- Do NOT mow or cultivate after treatment until weeds start to die off.
- Avoid contamination of any water source with product or empty container.

HOW IT WORKS: Weedinator is a broad spectrum, non-selective, non-residual, foliar absorbed and translocated herbicide for control of emerged weeds only. It is deactivated immediately upon contact with the soil and will not provide residual weed control.

Weeds should have sufficient leaf area for uptake, be actively growing, free of stress with clean foliage at time of spraying.

The effects of **Weedinator** may not be apparent for 3-7 days depending on weather conditions, weed species and the herbicide rate used. Some perennial weeds may not show effects for 14-21 days.

MIXING INSTRUCTIONS: Shake the container well before use. Add about half of the required water to the spray tank, then add the required amount of product. Mix and add the remaining water. It is best practice to use separate equipment for applying herbicides.

COMPATIBILITY: Weedinator is compatible with most commonly used herbicides. Use tank mixes promptly.

DIRECTIONS FOR USE

USE	RATE	COMMENTS
Non-cropland, driveway, path and garden edges, rockeries	2 mL/l litre water	Annual weeds, barley grass Apply as drenching spray to point of runoff.
	10 mL/l litre water	Difficult to kill weeds including docks, couch, kikuyu, paspalum, ryegrass. Apply as drenching spray to point of runoff.

CLEANING EQUIPMENT: Flush equipment thoroughly with several rinses with clean water after use. Dispose of washings carefully. It is best practice to use separate equipment when applying herbicides.

PERSONAL PROTECTION: Avoid ingestion, contact with skin and eyes and inhalation of spray mist. Wear gloves and eye protection when mixing or using. Do not eat drink or smoke when handling. Wash hands after use.

FIRST AID: For advice call a doctor or contact the National Poisons Centre (0800 764 766). If medical advice is needed, have product label or container at hand.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice.

ON-SITE CONTAMINATION: Remove contaminated clothing. Wash skin and hair with plenty of soap and water. If skin irritation occurs, get medical advice/attention. Wash contaminated clothing before reuse.

STORAGE: Keep out of reach of children. Store in tightly closed original container, in a cool, dry and away from foodstuffs. Shelf life 2 years from date of manufacture.

DISPOSAL: Dispose of product by using as per label directions or at an approved landfill. Triple rinse empty container adding washings to spray mix. Dispose of the empty rinsed container in the rubbish collection. Do not reuse the container for any other purpose.

SPILLAGE: Collect spillage. Absorb spill with soil/sand and transfer to a labelled sealable container for disposal at an approved landfill.
