AgSta 

Admire Amine 625

HERBICIDE

ACTIVE INGREDIENT

625 g/litre 2,4-D

as the dimethylamine and the diethanolamine salts, in the form of a soluble concentrate.

Non-volatile 2,4-D liquid for broadleaf weed
control in cereals and pasture.

Net contents: 20 L

READ LABEL COMPLETELY BEFORE OPENING AND USE

HAZARD CLASSIFICATIONS

Acute oral toxicity Category 3, Serious eye damage Category 1, Specific target organ toxicity (repeated) Category 1, Hazardous to soil organisms, Hazardous to terrestrial vertebrates, Hazardous to the aquatic environment (chronic) Category 2.

TOXICITY

DANGER -Toxic if swallowed. Causes serious eye damage. Causes organ damage from repeated oral exposure at high doses.

ECOTOXICITY

Toxic to aquatic organisms with long-lasting effects. Toxic to terrestrial vertebrates.

Selective herbicide – Very toxic to some plant species

Beware: Spray drift hazard. Apply this product carefully. Spray drift may cause serious damage to other desirable plants. Take all reasonable steps to ensure that the substance does not cause any significant adverse effects to the environment beyond the application area.

Aerial application Ensure compliance with relevant regional air management plans. To minimise the risk of damage from drift of this product, especially where susceptible vegetation is within 0.5km, use low drift nozzles which minimise the production of small droplets (less than 100 microns). Maintain a water rate of at least 30 litres/ha for aerial spraying. Do not add additional wetter unless specified on the label. Preferred wind conditions for spraying are a light constant breeze away from any sensitive crop.

QUALIFIED HANDLER This product must be under the control of a qualified handler when mixed, loaded or applied.

RECORD KEEPING If 3 kg or more of the substance is applied within 24 hours, in a place where the substance is likely to enter the air or water and leave the application area, written records must be kept.

HANDLING PRECAUTIONS

A person may supply this substance only to a workplace under the management and control of a PCBU, and only if the person has received written notification that there is someone at the workplace who has a relevant qualification as listed in Schedule 10 of the Hazardous Property Controls Notice.

PERSONAL PROTECTION Avoid contact with skin or eyes. Do not inhale spray mist.

When handling wear eye and respiratory protection, waterproof gloves, boots and overalls. Do not eat, drink or smoke while using. Remove protective clothing and wash hands and face thoroughly before rest breaks, meals and after work. Wash protective clothing daily after work.

STORAGE Store in original container tightly closed and in a locked, dry, cool area away from foodstuffs, seeds, and fertilisers. Storage must be in accordance with the current version of NZS 8409 Management of Agrichemicals. Stores containing 100 litres or more of **Admire Amine 625** require secondary containment, and an emergency response plan, and when more than 1000 L is stored, also a location compliance certificate and signage.

SHELF LIFE When stored appropriately this product should show no significant degradation for 2 years from the date of manufacture. Contact your supplier for further information about the use of any product that is older than this.

TRANSPORT Do not carry this product on a passenger service vehicle unless the package does not exceed 1 L.

EQUIPMENT Apply using well maintained spray equipment that is accurately calibrated to apply 100-300 litres of water/ha for ground spraying and 30-100 litres of water/ha for aerial spraying. Use higher water rates for larger weeds.

SPILLAGE AND DISPOSAL Avoid contamination of any water supply with product or empty container. Collect spillage. Wear appropriate protective clothing and prevent material from entering waterways. Absorb spill with inert material and place in labeled waste containers that can be sealed. Wash area with water and absorb with further inert material. Dispose of waste safely in an approved landfill.

Product Disposal Dispose of by using according to the label directions, or through a hazardous waste disposal facility.

Container Disposal Triple rinse empty container and add residue to spray tank. Recycle empty container through agricultural recycling service. Otherwise, crush and bury in a suitable landfill. DO NOT reuse this container for any other purpose.

FIRST AID

If medical advice is needed, have product label or container at hand. For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately.

If swallowed do NOT induce vomiting. Rinse mouth. Get immediate medical advice.

If skin or hair contact occurs, remove contaminated clothing. Flush skin and hair with running water. If irritation occurs, get medical advice.

If in eyes, rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Get immediate medical advice.

If inhaled, move person to fresh air immediately and keep at rest in position comfortable for breathing. If person feels unwell, get medical advice. Begin artificial respiration if breathing has stopped and get immediate medical assistance.

EMERGENCY RESPONSE

In a transport emergency call 111, Police or Fire Brigade.

RESISTANCE WEED WARNING

GROUP	4	HERBICIDE
-------	---	-----------

Resistance to this herbicide could develop from excessive use. To minimise this risk use strictly in accordance with label instructions. **Admire Amine 625** contains and belongs to the phenoxy group of chemistry. **Admire Amine 625** has the disruption of plant cell growth mode of action. Naturally occurring weed biotypes, resistant to **Admire Amine 625** and other phenoxy herbicides, are known to exist. Species with known resistant biotypes include nodding thistle, giant buttercup and slender winged thistle. Resistant individuals can eventually dominate the weed population if these herbicides are used repeatedly. Resistant weeds will not be controlled by **Admire Amine 625** or other phenoxy herbicides. To prevent or delay the development of resistance use **Admire Amine 625** in tank mixtures where appropriate and/or in rotation with herbicides having a different mode of action against the weed.

CONDITIONS OF SUPPLY

READ THESE CONDITIONS OF SUPPLY BEFORE BUYING AND USING. IF THESE CONDITIONS ARE UNACCEPTABLE, RETURN AT ONCE UNOPENED.

This formulation is warranted to contain the specified active ingredient within accepted analytical tolerance when packed. The user bears the risk for damage resulting from factors beyond the manufacturer or registrants control. The manufacturer and registrant decline all liability for damage resulting from improper storage or use of the product.

Registered pursuant to the ACVM Act 1997, No. P10215

See www.foodsafety.govt.nz for registration conditions.

Approved pursuant to the HSNO Act 1996, Approval Code HSR000367.

See www.epa.govt.nz for approval controls.
