AgStar Magnesium

PLEASE READ LABEL AND SAFETY DATA SHEET COMPLETELY BEFORE USE

WARNING: Causes serious eye irritation

PRECAUTIONS: Keep out of reach of children. Store in original container, away from foodstuffs. Wear suitable impervious gloves and eye protection and avoid contact with any exposed skin. Wash hands with warm soapy water after use and before handling food.

STORAGE: Keep in cool, dry chemical store, out of reach of children and animals. Protect from frost and other climatic extremes (including temperatures exceeding 40°C). Poor water quality may reduce the effectiveness of the product, the solubility of the product and/or increase the potential for phototoxic effects on plants.

FIRST AID: Call a POISON CENTRE(0800 764 766) or doctor/physician if you feel unwell. If medical advice is needed, have product container or label at hand. **IF SWALLOWED:** Give plenty of water to drink. Induce vomiting if conscious. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. If eye irritation persists, get medical attention/advice. **IF ON SKIN:** Wash thoroughly with soap and water. Remove contaminated clothing and wash before reusing. If skin irritation occurs, get medical attention/advice. **IF INHALED:** Remove to fresh air and keep at rest in a position comfortable for breathing.

CONDITIONS OF SALE: As no control can be exercised over the manner in which or the conditions under which this product is used, all conditions and warranties expressed or implied, other than those required by statute are excluded. No responsibility will be accepted for any damage or injury whatsoever arising from the storage, handling, application or use of this product.

Approved Pursuant to the HSN0 Act 1996, under the Fertilisers – Subsidiary Hazard group standard HSR002571. See www.epa.govt.nz for approval conditions.

DIRECTIONS FOR USE:

ALWAYS FOLLOW LABEL INSTRUCTIONS.

Mix AgStar Magnesium in its container thoroughly before use. Fill the spray tank until three quarters full with water and then, whilst agitating the spray tank, add the AgStar Magnesium via the top filter. Continue agitation until application complete. Always apply diluted or mixed chemicals immediately, do not store.

TANK MIXING OR CO-APPLICATION: Read all labels carefully and adhere strictly to instructions on mixing. Apply to small test area only

when using unfamiliar products or new crops. Many variables are outside the control of AgStar and can influence results of co-applied products and therefore co-application is entirely at the risk of the end user.

AgStar Magnesium should be applied in low light conditions in the morning or evening or on cloudy days. Do not apply during periods of high sunlight, heat, during rain or prior to expected rain. Where a deficiency is severe, additional applications may be required.

APPLICATION RATES:

CROP	RATE/HA	MIN WATER RATE/HA	RECOMMENDATIONS
Avocado	3-5L	500L	Apply during the spring flush and again during summer flush.
Brassicas	2-3L	200L	Apply one or more times between 4 true leaf stage and fully headed stage.
Carrots	2-3L	200L	1-2 applications, 10-14 days apart, from 15cm tall onwards.
Cereals	2-3L	200L	Applied during tillering and again at flag leaf emergence if necessary.
Citrus	3-4L	500L	Apply 1-2 times during spring flush and again during autumn flush.
Cucurbits	3-4L	200L	2-3 applications at least 7 days apart, beginning when enough leaf to effectively intercept spray.
Grapevines	2-4L	500L	Apply 2-3 times, 20-30 days apart, beginning at cap fall.
Kiwifruit	2-4L	500L	Apply during shoot extension and again after petal fall and repeat during fruit development as necessary.
Legumes	2-4L	200L	Apply once when 10-15cm high.
Lettuce	2-4L	200L	Apply as required at least 7-10 days apart, from 10-14 days after emergence until 3/4 of final size.
Maize / Corn	2-4L	200L	Apply between 4-8 leaves stage.
Olive	2-4L	500L	Apply just after bud-break and again at opening of calyx.
Onion	3-4L	200L	Apply up to 3 applications at least 10-14 days apart, from when sufficient leaf is available to intercept spray.
Pipfruit	2-4L	500L	Apply as required at least 10-14 days apart, from 4 weeks after petal fall.
Potatoes	3-4L	200L	1-2 applications between 1-4 weeks after 100% crop emergence. Apply again during bulking if required.
Stone Fruit	2-4L	500L	Apply as required at least 10-14 days apart, from stone hardening onwards.
Strawberries	2-3L	200L	Apply during spring growth and again during green bud.
Tomato	3-4L	200L	Commencing when plants are 15cm high and repeated 10-14 days later.
