120.000 mm

140.000 mm

READ LABEL BEFORE USING

- Don't add treated grass clippings to compost for 4-6 weeks after application. After that period, you can resume composting clippings.
- Ruminants or horses should not be grazed on treated grass for a period of 5-6 weeks after application.

DIRECTIONS FOR USE

Shake the container well before use. Measure the lawn area. Each 2L will treat 130 square metres of lawn. Apply when weeds are actively growing. Connect to hose. - Need specific instructions for the container to be used. Keep children, pets, wildlife and birds off treated lawns until the spray is dry.

PERSONAL PROTECTION: Avoid contact with skin and eyes. Do not breathe spray mist. Use in a well-ventilated area. Wear protective clothing, gloves, eye protection. Do not eat drink or smoke when handling. Wash hands after use. Clean protective clothing before reuse.

FIRST AID: For advice call a doctor or contact the National Poisons Centre (0800 764 766). If medical advice is needed, have product label or container at hand.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice.

IF ON SKIN: Remove contaminated clothing. Wash skin with plenty of soap and water. If irritation occurs, get medical advice.

IF SWALLOWED: Do NOT induce vomiting. Rinse mouth. Obtain medical advice if you feel unwell.

SAFETY DATA SHEET: Available from www.agstar.co.nz.

STORAGE: Keep out of reach of children. Store in tightly closed original container, in a secure cool, dry location away from foodstuffs. Shelf life two years from date of manufacture.

DISPOSAL: Dispose of product by using as per label directions or at an approved landfill. Triple rinse empty container adding washings to spray mix. Dispose of the empty rinsed container in the rubbish collection. Do not reuse the container for any other purpose.

SPILLAGE: Collect spillage. Absorb spill with inert absorbent and transfer to a labelled sealable container for disposal at an approved landfill.

WARRANTY: This formulation is warranted to contain the specified active ingredient within accepted analytical tolerance when packed. The user bears the risk for damage resulting from factors beyond the manufacturer's control. The manufacturer declines all liability for damage resulting from improper storage or use of the product.

HSNO Approval HSR00359. See www.epa.govt.nz for approval controls.

Hazard Statements

Causes serious eye irritation;
May cause damage to organs through prolonged or repeated exposure;
Harmful to aquatic life with long-lasting effects;
Toxic to soil environment;
Harmful to terrestrial vertebrates.

WARNINGS

- Do NOT apply on or around food and animal feed crops.
- **SELECTIVE HERBICIDE.** Beware - Apply this product carefully. Spray drift may cause serious damage to other desirable plants.
- Avoid contamination of any water source with product or empty container.

HOW IT WORKS: Lawn Feed & Fix works by killing common broad leaf weeds in grass lawns* including Onehunga weed, catsear, daisy, clover, chickweed, chamomile, dock, thistle and dandelion. Lawn Feed & Fix contains two plant hormone like substances that are absorbed by roots and leaves and accumulate in the actively growing areas of the plant. This causes them to curl and yellow, before being eradicated within four weeks. Because weeds are most effectively controlled when in the early stages of growth, Lawn Feed & Fix is best applied before weeds flower and set seed.

Lawn Feed & Fix also contains a fertiliser that contains nitrogen to encourage lush green leaves and a stronger lawn, and iron to promote a rich green colour through your lawn.

Important:

- DO NOT use on buffalo grass, or non-grass lawns e.g. dichondra, lipia or strawberry clover.
- DO NOT apply on or around food or animal feed crops
- DO NOT use on new lawns less than 3 months old
- DO NOT apply under windy conditions or if rain is expected within 24 hours
- DO NOT apply to lawns suffering from moisture stress
- DO NOT mow or fertilise for 7 days before or after application and avoid watering for 12 hours after application
- DO NOT drench around the roots of wanted plants
- Do not feed treated grass clipping to poultry, livestock, or use treated clippings to mulch plants.
