

ECOTOXIC

AgSta 

Ultra Weedkill 540

ACTIVE INGREDIENT
540g/litre glyphosate

as the potassium salt in the form of a soluble concentrate.

HERBICIDE

A non-residual, non-selective herbicide for general weed control.

Net contents: 1L

READ LABEL BEFORE USING

Hazard Statements

Hazardous to the aquatic environment (chronic) Category 2.

ECOTOXICITY

Toxic to aquatic life with long-lasting effects.

WARNINGS

- Do NOT apply on or around food and animal feed crops.
- Non-selective herbicide – Apply this product carefully.
- If accidental spraying occurs, immediately wash spray off foliage with plenty of water to minimise damage.
- Avoid contamination of any water source with product or empty container.
- Rainfall occurring up to 2 hours after application may reduce effectiveness.
- If applied to wet plants, efficacy may be reduced due to runoff.
- With brushweeds wait for stem dehydration to occur prior to burning or slashing.

HOW IT WORKS: Ultra Weedkill 540 is a broad spectrum, non-selective, non-residual herbicide for a range of annual and perennial weeds, brushweeds and woody plants. Ultra Weedkill 540 is absorbed by plant foliage and green stems. It is inactivated immediately upon contact with the soil and does not provide residual weed control. Ultra Weedkill 540 moves from the point of foliage or stem contact into the root system controlling the plant above and below the ground. Visible effects may take up to 14 days or even longer depending on growing conditions. These effects are a gradual wilting and yellowing of the foliage which advances to deterioration of above and below ground parts.

MIXING INSTRUCTIONS: Shake the container before use. Add about half of the required water to the spray tank, then add the required amount of product. Mix and add the remaining water. It is best practice to use separate equipment for applying herbicides.

COMPATIBILITY: Do not store mixed solutions for longer than 5 days. Do not use with 2,4-D Amine.

DIRECTIONS FOR USE:

USE	RATE	COMMENTS
Non-cropland areas General weed control	6,5 ml to 1 litre water	Apply to point of runoff.
Turfgrass and Recreational Areas (lawns, parks, reserves, ornamentals)	6,5 ml to 1 litre water	When applying to turf or lawns, allow for regrowth after mowing before applying

EQUIPMENT CLEANING: After application, clean equipment thoroughly with several flushes of water. Dispose of washings carefully.

PERSONAL PROTECTION: Avoid contact with eyes and skin. Avoid inhalation of spray mist. When handling, mixing or applying, gloves and eye protection. Do not eat, drink or smoke while using. Wash hands after use.

FIRST AID: For advice, call the National Poisons Centre 0800 POISON (0800 764 766) (24 hrs) or a doctor. Have label or container at hand.

If swallowed do NOT induce vomiting. Rinse mouth. Get medical advice if you feel unwell.

If skin or hair contact occurs, remove contaminated clothing and wash with soap and water. Get medical advice if irritation persists.

If splashed in eyes, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists, get medical attention.

If inhaled, remove to fresh air and keep at rest until recovered. Get medical advice if person feels unwell

SAFETY DATA SHEET: See product Safety Data Sheet accessible at www.agstar.co.nz for further information.

STORAGE: Keep out of reach of children. Store in the original, tightly closed container, in a secure place and away from foodstuffs. Shelf life is two years from the date of manufacture.

DISPOSAL: Dispose of this product only by using as per label directions or at an approved landfill. Triple rinse container and add washings to the spray mix. Dispose of empty rinsed container in the rubbish collection. Do not reuse container for any other purpose.

SPILLAGE: Collect spillage. Absorb spill with inert absorbent and transfer to labelled container for disposal at an approved landfill.

Approved pursuant to the HSN0 Act 1996, No. HSR100587
