READ LABEL COMPLETELY BEFORE OPENING AND USING

Not for use in home gardens
Treated vegetation must not be disposed of at any green waste recycling centre.
Do not use hay or other plant material that has been treated with this substance within 10 weeks of harvest to:

- make compost
- mulch susceptible crops
- make mushroom substrate.

Do not make compost from manure, paunch grass, or dairy effluent unless it is from clopyralid-free animals that have not grazed for at least 4 days on areas treated with clopyralid in previous 3 weeks. Do NOT use for treating turf that will be mown and the clippings used for making compost; or made available for collection for, or deposited at, a municipal green waste recycling depot.
Dispose of clipping and treated plant material to landfill if not left to decay naturally where plants have been growing.

HAZARD CLASSIFICATIONS
Hazardous to soil organisms, Hazardous to terrestrial vertebrates, Hazardous to the aquatic environment chronic Category 3.

ECOTOXICITY
Harmful to the aquatic environment and with long-lasting effects. **Crush Premium 750** must not be applied onto, over or into water. Take all reasonable steps to ensure that the substance does not cause any significant adverse effects to the environment beyond the application area.
Harmful to terrestrial vertebrates. Do not allow animals or birds access to the undiluted material or unused spray mix.
Selective Herbicide- Very toxic to some plant species.
Some plants may be damaged or killed by contact with this product. Do not allow drift outside the target area. Decontaminate equipment before use on sensitive plants (see Application Methods section). Use only according to label directions.

QUALIFIED HANDLER **Crush Premium 750** must be under the personal control of a suitably qualified trained handler when mixing, loading or applying.
RECORD KEEPING Records of use must be kept when 3 kg or more is applied within 24 hours in a place where the substance is likely to enter air or water and leave the application area.

HANDLING PRECAUTIONS
PERSONAL PROTECTION When opening the container, mixing and applying wear chemical resistant cover overalls buttoned to the neck and wrist (or equivalent clothing), elbow length chemical resistant gloves and a face shield or goggles and respiratory protection to a minimum of Organic Vapour standard. Wash hands after handling. After each day's use wash contaminated clothing and personal protection equipment.

STORAGE Store in the original container, tightly closed and in a secure, dry, cool, well-ventilated area, well away from foodstuffs or seeds. Storage must be in accordance with the current version of the New Zealand Standard for the Management of Agrichemicals (NZS8409). Stores containing 1000 kg or more of **Crush Premium 750** require signage, secondary containment and an emergency response plan.
EQUIPMENT Apply using accurately calibrated and maintained equipment in accordance with the current New Zealand Standard for the Management of Agrichemicals (NZS8409).
Flush equipment thoroughly with clean water after use according to Cleaning Spray Equipment instructions below. Dispose of cleaning water according to the Disposal instructions below.

SPILLAGE AND DISPOSAL Do NOT contaminate any water supply with product or used container. Do not touch or walk through spilled material. Wear the protective equipment recommended above. Prevent entry into waterways, and drains.
Contain and sweep up spilled material. Collect spilled product and place in sealable container for disposal. Spill residues may be cleaned using water and detergent. Contain and absorb wash water for disposal. Absorb and collect washings and place in the sealable container for disposal.
Product disposal - Dispose of this product only by using according to the label or at an approved facility.
Container disposal -Triple rinse empty container and add rinsate to the spray tank. Recycle empty container at an approved recycling facility. Otherwise crush and bury empty container in a suitable landfill. Do NOT use the container for any other purpose.

FIRST AID
For advice, contact the National Poisons Centre 0800 POISON (0800 764766) or a doctor.
Have product label or container at hand.
If swallowed do NOT induce vomiting. Rinse mouth. Get medical advice if person feels unwell.
If splashed in eyes, wash out immediately with running water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention. If skin or hair contact occurs, remove contaminated clothing and wash affected area with soap and running water. If skin irritation occurs, get medical attention. If inhaled, immediately move to fresh air and rest
EMERGENCY RESPONSE
In a transport emergency call 111, Police or Fire Brigade.

RESISTANCE MANAGEMENT		
GROUP	4	HERBICIDE

Crush Premium 750 is a pyridine carboxylic-acid herbicide (Group 4). Some naturally occurring individual weeds may become resistant when excessive use of the same herbicide occurs. To maximise the effectiveness of herbicides, product containing alternate modes of action should be used in the spray program. Consult <http://nzpps.org> for alternate modes of action and the details of resistance management strategies (if any) for the crops listed on the label.

CONDITIONS OF SUPPLY
READ THESE CONDITIONS OF SUPPLY BEFORE BUYING AND USING.
IF THESE CONDITIONS ARE UNACCEPTABLE, RETURN AT ONCE UNOPENED.
This formulation is warranted to contain the specified active ingredient within accepted analytical tolerance when packed. The user bears the risk for damage resulting from factors beyond the manufacturer or registrants control. The manufacturer and registrant decline all liability for damage resulting from improper storage or use of the product.
